II. Background

The NRC hereby informs potential respondents that an agency may not

conduct or sponsor, and that a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

Annually for participation by Agreement States in the IMPEP reviews and fulfilling requirements for Agreement States to maintain their programs.

Regulatory Authority and Assumption Thereof by States Through Agreement.” The Agreement States need to ensure that the radiation control program under the Agreement remains adequate and compatible with the requirements of Section 274 of the Act and must maintain certain information. The NRC conducts periodic evaluations through IMPEP to ensure that these programs are compatible with the NRC’s program, meet the applicable parts of the Act, and adequate to protect public health and safety.
